B. PLANNING & CONSTRUCTION

1. On July 22, 1946 the Board of Trustees approved the plans and related documents for four metal quonsets and authorized the solicitation of bids by contractors.

2. Bids were opened on August 30, 1946.

3. On September 4, 1946 the Board of Trustees approved the award by Cabinet on August 31, 1946 of the contract to Ken Dickerson, Inc.

4. This project was handled by Physical Plant; it was not a project of the University Archives Office.

5. A copy of the contract furnished by Walter Hartman from the Physical Plant files is dated October 10, 1946; sets December 31, 1946 as the completion date; and sets \$27,958 as the total amount of the contract.

6. Beginning of work:

Aerial photographs taken October 26, 1946 show the footings of all four buildings in place.

7. Completion and occupancy:

The scheduled completion date was December 31, 1946. Since the footings were in place by October 26, 1946, it is probable that the scheduled completion date was met, but no confirmation has been found.

A diary kept by Fred Emerson Jones shows that a load of surplus war materials was placed in Building 169 on May 9, 1947.

C. COST

Listed at \$30,110.24 as of June 30, 1948(B). Written off in 1957-58 report, although all four buildings were then still in existence.
